To the Office of the Prime Minister of the Republic of Armenia,

#### Opinion

We have audited the accompanying project financial statements of the Third Public Sector Modernization Project (the "Project"), financed within the framework of the Loan Agreement 8539-AM by the International Bank for Reconstruction and Development (the "IBRD"), which comprise the statement of cash receipts and payments, the statement of uses of funds by Project activities as of and for the year ended 31 December 2019, as well as a summary of significant accounting policies and other explanatory information.

In our opinion, the project financial statements present fairly the cash balance of the Third Public Sector Modernization Project as of 31 December 2019, and the cash received and cash paid for the year then ended, in accordance with the International Public Sector Accounting Standards ("IPSAS") "*Financial Reporting Under the Cash Basis of Accounting*" issued by the International Public Sector Accounting Standards Board of the International Federation of Accountants, the World Bank guidelines, as well as the relevant points of the Loan Agreement 8539-AM.

#### Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing ("ISAs"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Project Financial Statements* section of our report. We are independent of the "Office of the Prime Minister of the Republic of Armenia" (the "Office") in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (the "IESBA Code") together with the ethical requirements that are relevant to our audit of the financial statements in the Republic of Armenia, and we have fulfilled our other ethical responsibilities in accordance with those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Emphasis of Matters

 We draw attention to note 2 to the project financial statements, which describes the basis of accounting. The project financial statements are prepared to assist the management of the Office to meet the requirements of the World Bank guidelines and the relevant points of the Loan Agreement 8539-AM. As a result, the project financial statements may not be suitable for another purpose. Our opinion is not modified in respect of this matter.

 We draw attention to note 10 to the project financial statements which describes the effect of a new disease COVID-19. Our opinion is not modified in respect of this matter.

#### Other matter

As described in note 11, the project financial statements as of 31 December 2018 were restated by the Office. Accordingly, the balance of the funds has been decreased by amount to US dollars 2,900,000.

#### Responsibilities of Management and Those Charged with Governance for the Project Financial Statements

The Office is responsible for the preparation and fair presentation of the project financial statements in accordance with IPSAS *Financial Reporting Under the Cash Basis of Accounting*, the World Bank guidelines and the relevant points of the IBRD Loan Agreement 8539-AM, and for such internal control as management determines is necessary to enable the preparation of project financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibilities for the Audit of the Project Financial Statements

Our objectives are to obtain reasonable assurance about whether the project financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these project financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the project financial statements, whether due
  to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit
  evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting
  a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may
  involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Office's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Evaluate the overall presentation, structure and content of the project financial statements, including the disclosures, and whether the project financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

# 📀 Grant Thornton

We communicate with the management, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

#### 10. Subsequent events

In March 2020 the World Health Organization has classified the coronavirus (COVID-19), which has exploded in China in December 2019, as pandemic. The impact of the coronavirus outbreak is unknown at this time. The developing situation with COVID-19 may have some impact on the continuity or the volume of the operations of the Office. On 16 March 2020 the Government of the Republic of Armenia announced a state of emergency in the country to last until 13 June 2020. These project financial statements do not reflect the potential effect of the above.

#### 11. Restatement

In order to provide free financial assistance to the Republic of Armenia within the framework of the Project, the Russian Federation will provide financial aid at the amount of 8.2 million US dollars during 2017-2021 by the bilateral agreement signed in June 2017. Since the Ministry of Finance of the Republic of Armenia was assigned to implement the Project within the scope of the above mentioned agreement, only funds of the Project supported by the World Bank are included in the project financial statements. Therefore, the project financial statements have been restated as of 31 December, 2018 to exclude the received financing amount and the cash balance of US dollars 2,900,000 related to the financing received from the sources of the Ministry of Finance of the Russian Federation.

The project financial statements have been restated as follows:
